Re: International Diabetes Federation (IDF) Recognition Programme – Application

Dear Dr Gupta,

As Chair of the Diabetes Education Consultative Section (DECS) of the International Diabetes Federation (IDF), it is my great pleasure to offer my sincere congratulations to you and your team in recognition of your diabetes education programme entitled **“Certified Diabetes Educator-India” – (CDEI) Program at Rama Krishna Mission Sevashram, Vrindaban, India**. The programme reviewers appreciate your ongoing work and commitment to diabetes education.

IDF Recognition provides you with the rights to use the IDF Recognition Programme logo along with the following statement: “This course has been recognized by the International Diabetes Federation”. The use of the logo and statement is restricted to the teaching materials of the recognized programme and communicates to the world that you have undergone an external review and have met the educational standards set by the Federation.

This recognition is valid for three years, at which time a renewal process is required to continue the use of the IDF Recognition Programme logo on educational materials. In a follow-up email, we will share a copy of the MOU, provide information on the use of the logo and the annual reporting required for maintaining your recognition status. IDF staff members, Dr David Chaney, Senior Education Specialist and Sameer Pathan, Education Project Coordinator, are pleased to address any questions you may have and they may be reached as indicated below.

Again, congratulations to you and your team for this great accomplishment! Your ongoing work to increase the reach and practice level of health care professionals, enables them to provide quality diabetes education, skills training and support to people with diabetes, their families and caregivers.

Warm regards,

Sue McLaughlin, MOL, RD, CDE  
Chair, Diabetes Education Consultative Section, 2014-2016  
International Diabetes Federation
